# ISC Ports

Configure the ISC Ports feed as follows:

1. On Lumeta's main menu, browse to **Settings** > **Integrations** > **Open Source Feeds** > **ISC**.

ISC Port Threat Configuration

Active: Yes

Polling Interval (by Hour)

24

Submit

✅ Product configured properly.

2. Enable the threat feed by moving Active slider to the right.
   The label changes from a red No to a green Yes.
3. Input a Polling Interval to indicate the time that should elapse between fetching the latest feed data. Input 24 to poll daily, input 12 to poll twice a day, and so on.
4. Click **Submit**.
   Feed is configured.
