

Adding Command Centers to the Portal Map

To make the best use of Portal, provide it with the latitude and longitude coordinates of each of your Command Centers. The Portal system's geolocation capability depends on having this positioning data. One way to find the coordinates of a Command Center location is to use most any browser-based map application. Search [Get the Coordinates of a Place](#) in your web browser to learn how using Google Maps.

To add a Command Center to the Portal map:

1. Browse to Settings > Lumeta Systems.
2. Click the green Add icon.
3. Complete the form.

System Name or IP Address	<input type="text" value="10.9.0.66"/>
Label	<input type="text" value="dfr-cc-33"/>
Latitude	<input type="text" value="50"/>
Longitude	<input type="text" value="60"/>
Command Center Icon	<div><div data-bbox="704 940 1321 1245"><p>Command Center Icon (image requirements: 128 x 128 PNG file)</p><p>Drag and drop or select a file to upload</p></div></div>

Your image will be resized to fit into a square.
