

Opening Attached Command Centers from Portal 3.3

The method to access attached Command Centers has been enhanced in this 3.3 release. Also, users who log in with read-only access can choose to open to either the home page or a zone map. See [Portal-to-CC Login for Portal 3.2.7 Users](#) for the Lumeta Portal 3.2.6 and 3.2.7 login options.

- **Edit** - Allows [superusers](#) (only) to edit the Command Center's identifiers, position on the map, and license descriptors. The Edit button only displays for superusers.

Once in Edit mode, a superuser can edit the system label and other Command Center identifiers. The superuser can change the CC icon's position on the map.

System Name	alex-cc-327-up-33	Customer	QA
IP Address	10.9.0.53	Hardware Id	4202F6
Label	Spectre 3.3 Command Center	Serial Number	201802
Version	3.3.0.11209	Activation Date	2/13/20
Latitude	55	Grace Period	7
Longitude	33	Lifetime	perpetu
		Use By	2/20/20
		IP Count	0
		Scouts	0

- **Read-only Access** - Provides portal users with read-only access to either the Home page or to a zone map on their selected Command Center. With this type of access, you can either open to a Command Center's Home page or to a particular zone map.

To open the Home page of a Command Center:	To open one zone map on a Command Center:
<p>Command Center Report</p> <p>System: Spectre 3.3 Command Center Status: Connected 10.9.0.53 662 warnings 0 alerts 1319 info</p> <p>Edit Read-Only Access Credential Based Access</p> <p>z2</p> <p>Go to map</p>	<p>Command Center Report</p> <p>System: Spectre 3.3 Command Center Status: Connected 10.9.0.53 662 warnings 0 alerts 1319 info</p> <p>Edit Read-Only Access Credential Based Access</p> <p>z2</p> <p>Go to map</p>

- **Credential-based Access** - Opens the login screen to the selected LumetaCommand Center. Once you have authenticated, you can use the system in accordance with your user role.

Controls for superusers

Only a superuser can add a Command Center to the Portal, or delete one. Only a superuser can manage users. Accordingly, the Settings menu and the Edit button only display on the Portal landing page for superusers.
